

PRESS FRAME SUPPORT CLAMP FOR PIT LIFTS

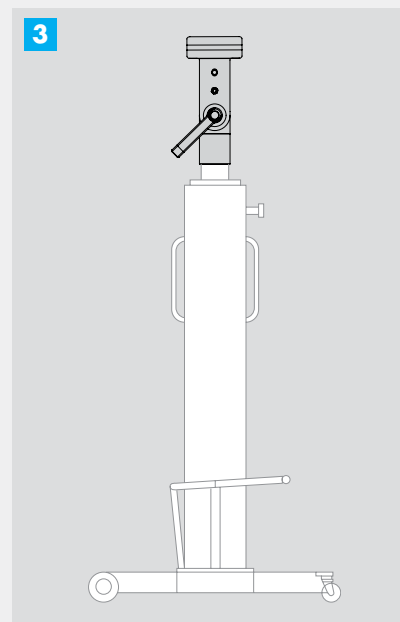

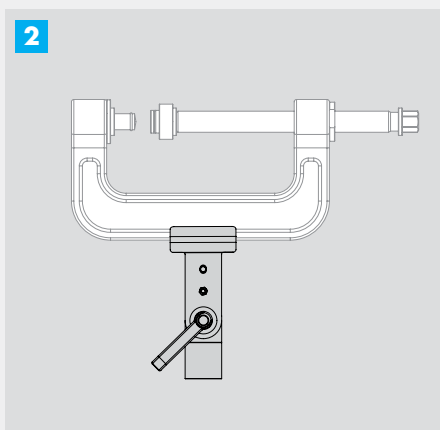

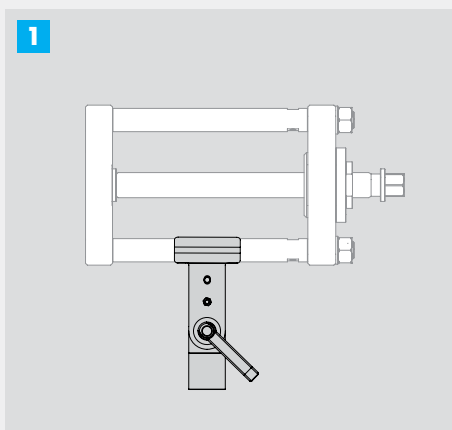

- Allows the clamping of press frames (1) and C-frame (2) to be placed on a pit lift (3).
- Greatly facilitates the positioning of the components' press frames when replacing bearings, bushings, load-bearing joints, etc. directly on the vehicle.
- This tool can be adjusted and rotated.

Technical data

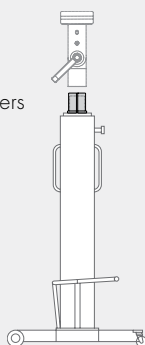

- Pit lift housing: Ø40mm
- Total length: 220mm

Example of applications

Note

You can find the reduction adapters to be used with your pit lift.
