

PULL ROD/EXTENSION SET UNIVERSAL

Drive shaft
extraction from hub

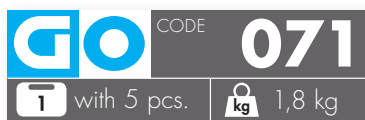

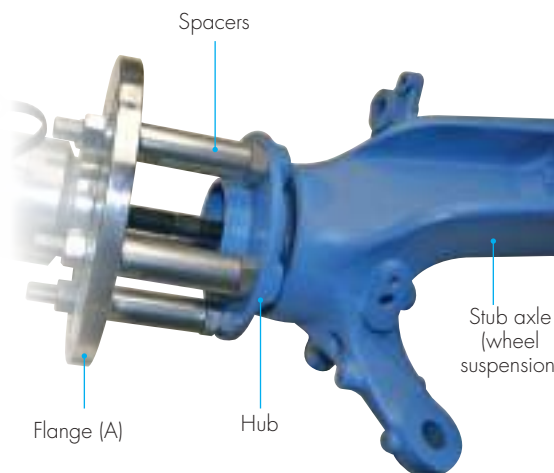

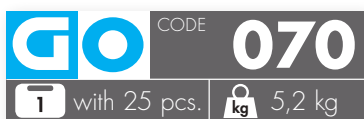

Components

5 x spacers kit for hub flange M12x1.25

5 x spacers kit for hub flange M12x1.50

5 x spacers kit for hub flange M14x1.50

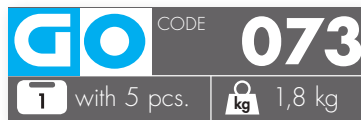

- Useful addition to Govoni's **GO010** kit for the removal of CV joints.
- This kit ensures a strong flange connection with the hub and is also suitable for systems with wheel nuts and/or bolts.
- The user is not bound to the diameter of the hub edge since the hub's flange is placed 80 mm or 90 mm in front of the hub.

M12X1.25

Components

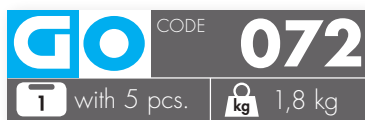

1 x spacers kit M12x1.25 L = 80 mm

M14X1.25

Components

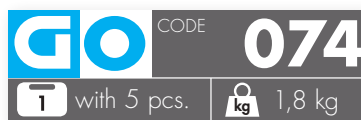

1 x spacers kit M14x1.25 L = 80 mm

M12X1.5

Components

1 x spacers kit M12x1.5 L = 80 mm

M14X1.5

Components

1 x spacers kit M14x1.5 L = 80 mm
