

GLOW PLUG REPAIR MASTER KIT

M9X1

- For re-cutting, cleaning and replacing damaged glow plug threads M9x1.0.
- Saves the need to buy a new cylinder head when the glow plug thread has been stripped.
- The extra-slim threaded inserts are equipped with corrosion protection.
- Particularly secure and gas-tight seating of the threaded inserts in the cylinder head.
- Repairs can be carried out directly on the vehicle, saving both time and cost.

NEW

COMPONENTS
