

BODY PULL CLAMP

UNIVERSAL

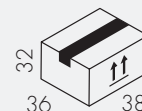

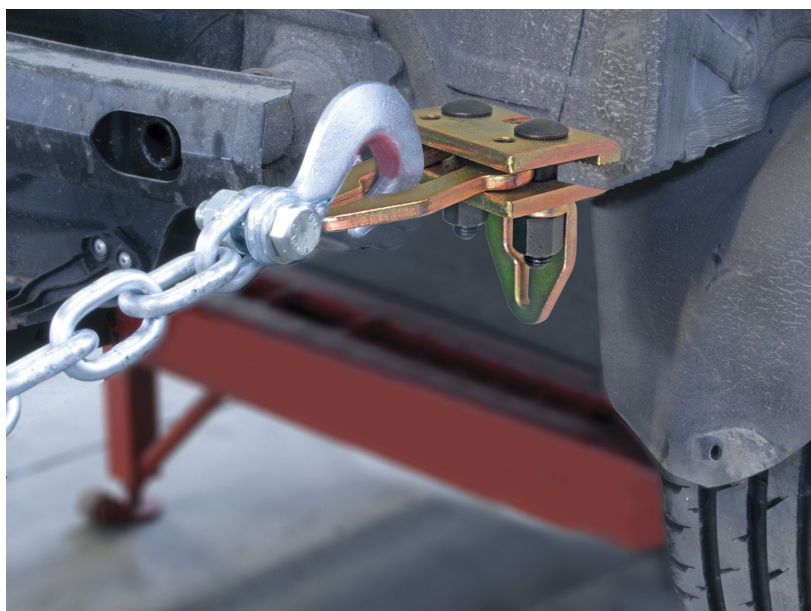

- It is required for straightening and re-deforming body parts by means of a pulling device.
- The two drawbar eyes allow straightening work in two directions simultaneously.
- The jaws are secured against slipping on the component with the aid of the clamping screw. The straight pull automatically increases the holding force of the jaws. (Clamping cone).
- The drawbar eyes can be connected by means of hooks with a slide hammer or a chain.

For slide hammer or chain.

Technical data

- A = 140 mm
- B = 22 - 135 mm
- C = 120 mm
- D = 32 mm
- E = 175 mm
