

G HGV SPLIT BUSH KIT

- Use this tool kit to remove and refit slotted bushes **1** properly. The slight conical grinding makes it possible to extract and reuse bushes without damage.
- By means of the locking device and relating half-shells, bushes are pre-tensioned carefully and parallel to one another so they can be pressed easily into their seat.
- **The kit does not include the hydraulic cylinder.**

G SPECIAL TOOL FOR **MB ACTROS 4 AND ANTOS** STABILISER BEARINGS

NEW

Components

1 x	installation/removal sleeve
1 x	installation/removal sleeve with spindle mount M20 or M24
2 x	fixing pins for installation/removal sleeves
1 x	long sleeve with inspection window (125 mm)
1 x	M20 spindle with nut or M24
1 x	pressure plate with seat for thrust bearing
1 x	thrust bearing

- This tool is designed for the installation and removal of Ø99 mm silent bushes without a through hole, ensuring a correct and damage-free operation.
- Due to the integrated fastening element, standard universal tools are not suitable for this application.
- The kit includes an M20 spindle, pressure nut and thrust bearing for mechanical installation and removal.
- Owing to the high forces required, the use of a Govoni hydraulic cylinder with a minimum capacity of 17 tonnes is recommended

Application

Mercedes-Benz: ACTROS MP4 / MP5 (from 07/2011) and ANTOS (from 07/2012) – Euro 6

Suitable for OEM silent bush part number

A960 326 12 81
