

## UNIVERSAL SPINDLE AND BUSHING BASIC SET, Ø 14/24 - 32/42 MM

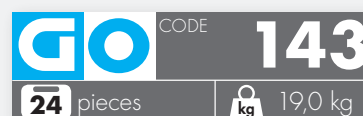

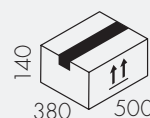

UNIVERSAL

Versatile use on the vehicle, workshop press, vice, etc.

- This range is used for removing and fitting bearings, bushes, sleeves, sealing rings, etc. It is a low-cost alternative to vehicle-specific thrust piece sets.
- It is an inexpensive alternative to vehicle-specific pressure piece sets.
- Can be used mechanically or by means of optional hydraulics.
- **ADVANTAGE**
- Sleeves can be machined and optimally adapted to the work task. All parts can also be purchased individually!
- Sleeves Ø increase by 2 mm (high dimensional coverage)
- Sleeves can be stacked for long and short components
- Extra-long spindles (450 mm) can withstand high tensile loads
- Minimal friction due to integrated thrust bearing

SCOPE OF DELIVERY

10 x pressure sleeve with inspection window, OD24 x ID14 to OD42 x ID32 mm  
6 x sleeve mounting plate  
2 x spindle, 1 x M10 and 1 x M12 each  
2 x centring bush with thrust bearing  
4 x thrust nut, 2 x M10 and 2 x M12 each

NOTE

Ask your GOVONI contact person about our medium **GO140** range and our large **GO142** range!
