PETROL INJECTOR REMOVAL KIT

NEW

Brand

Volkswagen, Audi, Škoda, Opel, Ford, Mercedes-Benz, Seat, Nissan, Hyundai, Bmw, Citroën, Renault, Peugeot.

Application

Universal for passenger cars and light commercial vehicles with petrol direct injection (GDI) engines.

Compatible with injectors manufactured by:

Bosch, Siemens VDO, Continental, Magneti Marelli and Denso.

- Designed for the quick, professional and damage-free removal of injectors.
- The injector is removed using a slide hammer and dedicated adaptor fittings.
- Required when replacing injectors or removing the rocker cover.
- Supplied with five different adaptors for various attachment options, such as the injector tip or the injector plastic body.
