

## VALVE SPRING COMPRESSOR

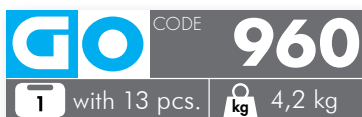

### PLUS

- This kit includes 3 adapters for valves assembly and, overall, 8 reduction rings suitable to the adapters, from Ø 19.8 to 50 mm. This kit can therefore be used **universally for small and large valve plates**, from cars to vans.
- The open shape of the mounting adapters allows **easy access to the valve plate and to the cones**, by means of which the semi-cones of multivalve engines can also be easily worked.
- The **lightweight, maneuverable, high strength aluminium** chassis is equipped with a **precisely controllable pneumatic cylinder**.

- Universal pneumatic tool for assembling and disassembling engine valves, suitable for all types of valves on petrol and diesel engines.
- Practical and easy to use, it permits time saving up to 60 - 70%, especially during valve assembly.
- Appositely made for engines with 4/5 valves for cylinder.

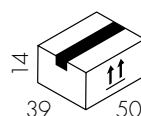

**196 Kgf**

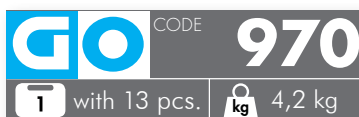

### Technical data

- CE approved machine in compliance with 2006/42/CE (Machine Directive).
- Case dimensions: 485x375x135 mm
- Working pressure: min 6 - max 10 bar
- Power: 6 bar=118 Kg, 10 bar=196 Kgf

**125 Kgf**

### Technical data

- CE approved machine in compliance with 2006/42/CE (Machine Directive).
- Case dimensions: 485x375x135 mm
- Working pressure: min 6 - max 10 bar
- Power: 6 bar=75 Kg, 10 bar=125 Kgf
